

**Brown Bag Seminar Series for  
Coordinators of Precollege Science Education Programs**

**Seminar Series:** Sharing Strategies in K-12 Science Education

**Title:** *Outreach Events for Local Teachers/Students at Scientific Meetings*

**Format:** Roundtable discussion for sharing unique outreach events to teachers and/or students at scientific annual or regional meetings

**Date:** **Thursday, February 11, 2010**

**Time:** **12:00 noon - 1:00 pm**

Cookies and coffee will be provided; bring your lunch.

**Location:** Federation of American Societies for Experimental Biology (FASEB)  
Conference Room 1502, 9650 Rockville Pike, Bethesda, MD 20814  
<http://www.faseb.org/Who-We-Are/Directions-to-FASEB.aspx>

**Host:** American Physiological Society

**Contacts:** Mel Limson, Ph.D., APS K-12 Education Programs Coordinator

[mlimson@the-aps.org](mailto:mlimson@the-aps.org), 301.634.7132

Marsha Lakes Matyas, Ph.D., APS Director of Education Programs

Do you invite local K-12 teachers and students to your annual meeting or conferences? Come and share your ideas and learning about program models. This roundtable discussion will focus on sharing our programs and events for teachers and students in the local communities of the conference host city.

Learn from other societies and bring your own experience to share answers to these types of questions:

- What are the program's goals and objectives?
- What types of events are offered?
- What content is delivered?
- How do member scientists engage and interact with students and/or teachers?
- How are these events planned, promoted, evaluated, and funded?
- What resources are available?

**Please RSVP no later than Thursday, February 4<sup>th</sup>**, by our Evite system (preferred) by clicking: <http://www.evite.com/app/publicUrl/JIBYHXLOHTABEAGSKALX/100211Seminar> or by directly emailing Mel Limson in the APS Education Office at [mlimson@the-aps.org](mailto:mlimson@the-aps.org). Feel free to share this invitation with appropriate colleagues in the K-12 science education community within the metropolitan DC region. **Programmatic information and presentations are posted at:** <http://www.frontiersinphys.org/pages/page04g.shtml>.

The seminar series is part of the APS' Six Star Science Frontiers in Physiology program ([www.frontiersinphys.org](http://www.frontiersinphys.org)) sponsored by the APS and by an NIH NCRR Science Education Partnership Award ([www.ncrsepa.org](http://www.ncrsepa.org)).

Other questions? Email Mel: [mlimson@the-aps.org](mailto:mlimson@the-aps.org).
